**Subject: NOTICE OF AVAILABILITY OF A DRAFT ENVIRONMENTAL IMPACT REPORT  
AND PUBLIC MEETING:  
Devers-Mirage 115 kV Subtransmission System Split Project (A.08-01-029)  
SCH No. 2008041087**

**Date: January 7, 2010**

The California Public Utilities Commission (CPUC) has prepared a Draft Environmental Impact Report (Draft EIR) under the California Environmental Quality Act (CEQA) for consideration of Southern California Edison's (SCE) application to construct, operate, and maintain the Devers-Mirage 115 kV Subtransmission System Split Project (Proposed Project). The Draft EIR details the Proposed Project, evaluates and describes the potential environmental impacts associated with the construction, operation, and maintenance of the Proposed Project, identifies those impacts that could be significant, and presents mitigation measures which, if adopted by the CPUC, could avoid or minimize these impacts. The Draft EIR also evaluates alternatives to the Proposed Project, including the No Project Alternative, as required by CEQA.

#### **Description of the Proposed Project.**

The Proposed Project is located within central Riverside County, including portions of the cities of Palm Springs, Rancho Mirage, Palm Desert, Cathedral City, and Indian Wells, and unincorporated areas of Riverside County, including the community of Thousand Palms. See the map that follows this notice for an illustration of the project area. The Proposed Project includes the following major elements:

- replacement of approximately 5.3 miles of existing 115 kilovolt (kV) single-circuit subtransmission line with new higher capacity double-circuit 115 kV subtransmission lines and replacement of support structures within existing SCE rights-of-way (ROWs), franchise locations (public ROWs), and private property between Farrell and Garnet Substations in the City of Palm Springs;
- construction of a new 115 kV subtransmission line from Mirage Substation south to Interstate 10, adjacent to the east side of Tri-Palm Estates and within SCE's existing ROWs or franchise locations;
- looping the existing Devers-Coachella Valley 220 kV transmission line from an existing ROW to the south for approximately 0.8 mile on double-circuit lattice steel towers to Mirage Substation, located near the community of Thousand Palms;
- installation of a new 280 megavolt amperes (MVA) 200/115 kV transformer, two new 220 kV circuit breakers, and five new 115 kV circuit breakers at SCE's existing Mirage Substation; and
- subtransmission line reconfigurations at the intersections of Bob Hope Drive and Dinah Shore Drive, Portola Avenue and Gerald Ford Drive, and Varner Road and Date Palm Drive.

The Proposed Project would also include additional equipment and relay installations at Mirage, Concho, Indian Wells, Santa Rosa, Eisenhower, Farrell, Garnet, Thornhill, and Tamarisk Substations located in the cities of Palm Springs, Rancho Mirage, Indian Wells, Cathedral City, Palm Desert, and unincorporated areas of Riverside County, including the community of Thousand Palms. The Proposed Project would also include the transfer of existing fiber optic cable to new support structures and installation of new fiber optic and digital telecommunications equipment.

The objectives of the Proposed Project are to maintain electric system reliability, enhance operational flexibility, and serve projected electrical demand in the cities of Palm Springs, Rancho Mirage, Cathedral City,

Palm Desert, Indian Wells, and unincorporated areas of Riverside County, including the community of Thousand Palms. Construction of the project is proposed to begin in the second quarter of 2010 and be operational by mid-2011.

**Public Comment on the Draft EIR.**

The Draft EIR is available for a 45-day public comment period from January 8, 2010 through February 22, 2010.
