Overview of Analysis on Open Proceedings

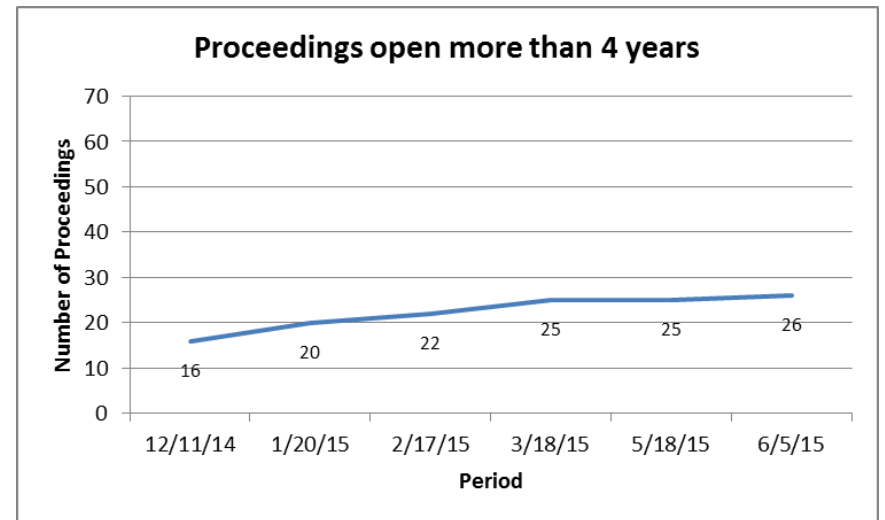

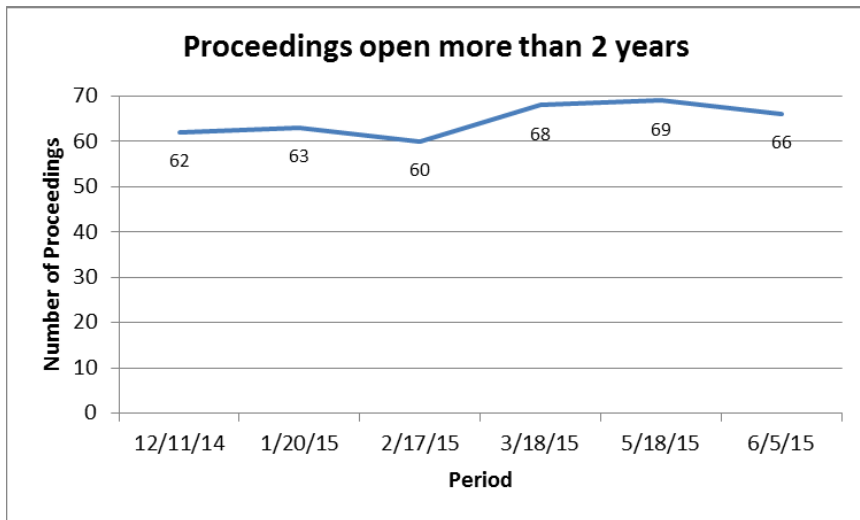

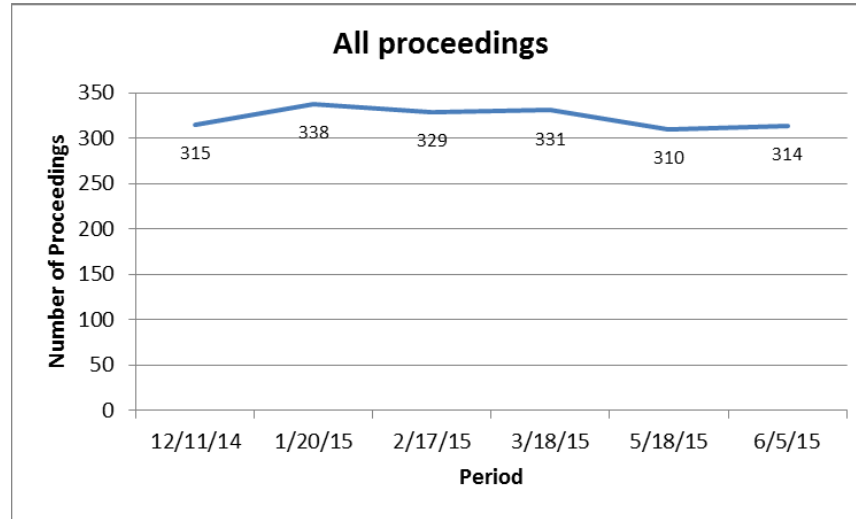

This presentation provides information on the age and number of open proceedings over the past six months. The purpose of this presentation is provide transparency on the work of the Commission.

Slides 3-5 present descriptive graphs on all open proceedings.

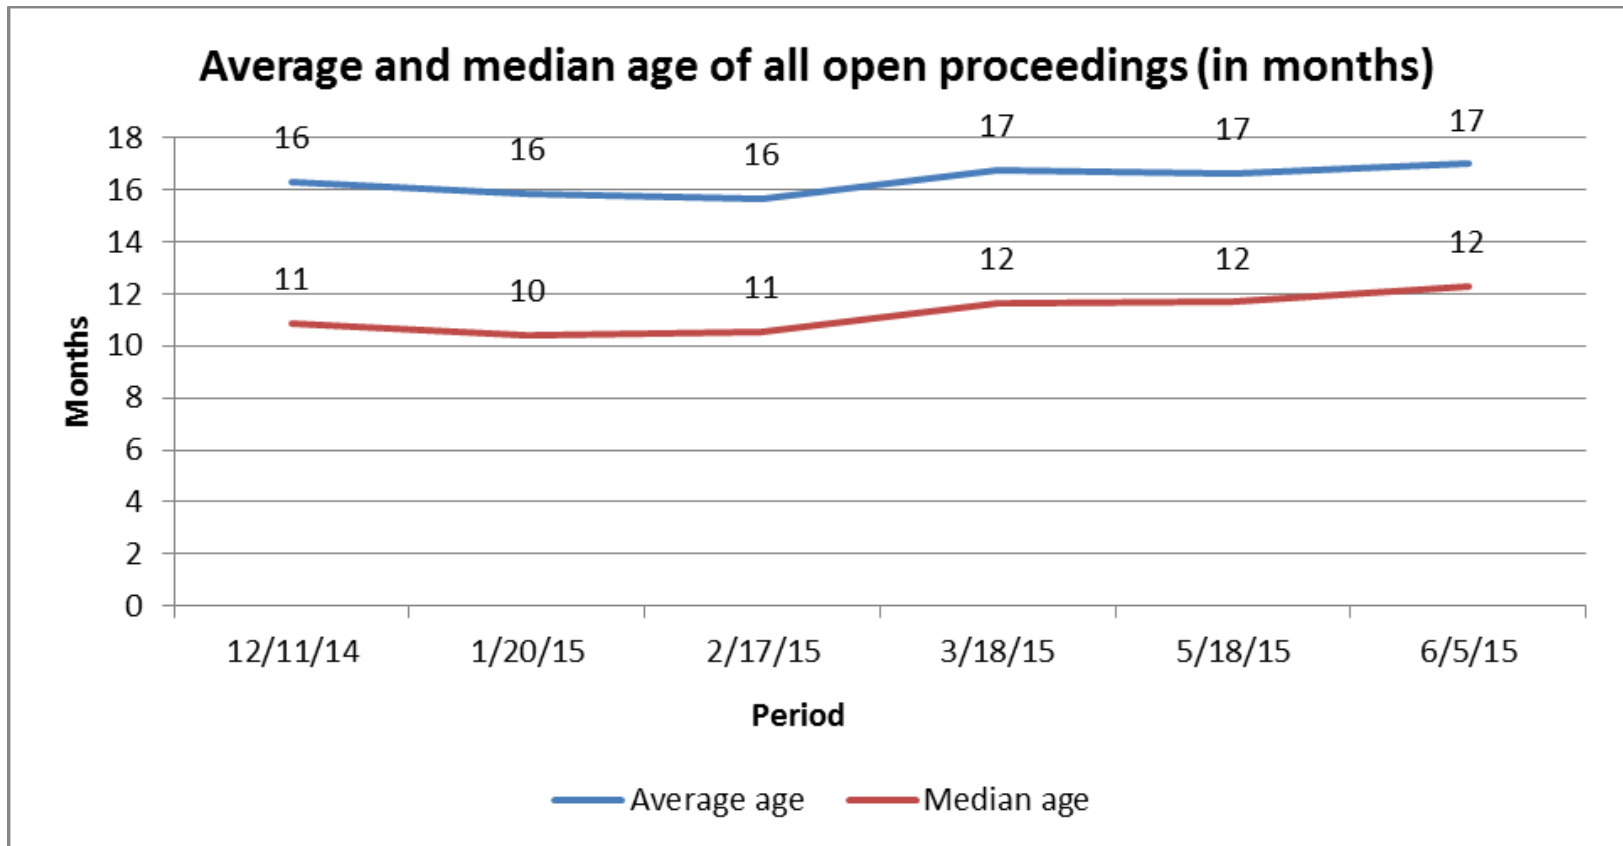

Slides 6-8 present descriptive graphs on only proceedings that have been continuously open (as opposed to re-opened.) The data is further broken down by proceedings assigned to an ALJ working with a Commissioner and proceedings that are the responsibility of both ALJ and Legal Divisions. The latter occurs when a proceeding has been appealed.

Slides 9-11 present descriptive graphs on only proceedings that were closed and subsequently reopened, usually due to the filing of a petition for modification or an application for rehearing.
