

# California Public Utilities Commission

## Informational Webinar on the California Teleconnect Fund

The California Public Utilities Commission (CPUC), in ongoing efforts to bridge the digital divide, will hold a free webinar on the California Teleconnect Fund (CTF), which provides eligible organizations with discounted rates on select telecommunications and broadband services. CPUC staff, the California Department of Education, and the Sacramento Public Library will discuss school and library annexes and the CTF application process. CPUC staff will also provide a demonstration of the updated electronic Claim and Application Portal (eCAP) system and how eligible schools and libraries can link their annexes to existing CTF eCAP accounts. This will enable existing school and library participants to receive discounts on eligible advanced communication services at associated annex locations contingent upon CTF application approval.

The CTF is dedicated to ensuring that eligible California organizations have access to discounted telecommunication services. This initiative aims to promote digital equity and enhance the quality of life for all Californians. During the webinar, CPUC staff will cover the following topics: CTF's role in schools and libraries; annex criteria and eligibility; importance of school and library annexes; technologies covered by the CTF; application processes, submission, and timelines; and an eCAP demonstration.

For questions about the CTF or for technical assistance, please contact [CTFOutreach@cpuc.ca.gov](mailto:CTFOutreach@cpuc.ca.gov).

**Attendees should register in advance of the webinar. Video and call-in options will be provided through email after registration:**
