TRANSPORTATION LICENSING AND ANALYSIS BRANCH (TLAB)

TLAB’s Licensing Section analyzes applications from carriers, issues permits and certificates to carriers that meet state requirements, writes proposed decisions to approve or deny carriers’ CPCN applications, manages changes to carrier operations, communicates with carriers, and tracks carrier compliance with permit requirements. TLAB’s Analysis Section functions as the Commission’s subject matter expert on policy matters, providing technical and advisory support to commissioners, administrative law judges, and all levels of agency management on transportation matters.

Processing Carrier Applications

TLAB’s Transportation Licensing Section is processing and managing applications for over 7,600 carriers throughout California. Items processed in October 2024 include applications, vehicle and driver updates, vehicle safety inspection results, and other requests. This work is accomplished through the CPUC Transportation Carrier Portal (TCPortal), an online system that allows carriers to submit applications and other requests electronically and make payments online. The TCPortal tracks certain licensing activities as shown in the following tables and figures.

Figure 1. Total Permits & Certificates

Total Permits and Certificates. Figure 1 shows the total number of operating authorities (active and suspended) by month.

Table 1. Permits and Certificates by Category

Permits and Certificates by Category. The Commission grants permits and certificates for five categories of transportation carriers. Table 1 shows total numbers for those categories in the current month.

Carrier Type	Current Total
Transportation Charter Party	7,513
Passenger Stage Corporation	98
Vessel Common Carrier	15
Transportation Network Company	17
Autonomous Vehicle	5

Figure 2. Monthly Completions of Permit Categories

Monthly Completions of Permit Categories. In addition to new applications for operating authorities, TLAB processes refile applications, transfer applications, and renewal applications. Figure 2 shows the application numbers of each category completed by month.

Figure 3. Suspensions and Revocations by Month

Suspensions and Revocations. Carriers can be suspended or revoked for various reasons such as failing to maintain active insurance or to file annual or quarterly PUCTRA statements. Carriers may also voluntarily suspend operations. Figure 3 shows both types of suspensions and revocations by month.

Figure 4. Average Processing Times

Average Processing Times. The total time to process an application, from initial receipt to issuance or denial of a permit or certificate, depends on internal processing time and on the time for external entities to provide necessary information. Upon receipt of applications, CPUC staff review them for completeness and issue deficiency notices to carriers for any outstanding items.

Examples of these items include evidence of insurance coverage filed by the carrier’s insurance provider; evidence of compliance with drug and alcohol testing requirements; and inspection by the California Highway Patrol for modified limousines and vehicles with a seating capacity of 11 or more. Figure 4 shows the average total processing time for the major categories of permits and certificates processed by TLAB.

Docket Activity

Current Policy and Program Proceedings. The Transportation Analysis Section supports three current proceedings. R.12-12-011 develops regulations relating to transportation network companies and autonomous vehicles. R.19-02-012 implements Senate Bill 1376, incentivizing transportation network companies to provide on-demand service for persons with disabilities, including wheelchair users who need a wheelchair accessible vehicle. R.21-11-004 implements the California Clean Miles Standard and Incentive Program, enacted through Senate Bill 1014, requiring the California Air Resources Board and the Commission to jointly work to lower greenhouse gas emissions from transportation network companies.

Carrier Application Proceedings. The Transportation Licensing Section assists the Commission in the regulation of Passenger Stage Corporations and Vessel Common Carriers. Passenger Stage Corporations

(PSCs) are carriers that transport passengers between points on an individual fare basis. Examples are fixed-route bus services and “share-the-ride” airport shuttle services. Vessel Common Carriers (VCCs) are carriers that transport persons or property between points in the State. Examples are commute ferry services in the San Francisco Bay and services between California mainland points and Catalina Island. PSCs and VCCs are common carriers and must file requests with the Commission through a formal process. Both carrier types require a “certificate of public convenience and necessity” (CPCN) from the Commission for the authority to operate in California.

- **A.23-07-009** / In the Matter of the Application of: THE SONOMA COUNTY AIRPORT EXPRESS, INC. (PSC-1120) to modify Applicant's existing Certificate of Public Convenience and Necessity (CPCN) to abandon service between hotels in Sonoma County and wineries located in Santa Rosa, Kenwood and Geyserville. / **10/17/2024 Decision (D.) 24-10-005 adopted granting application.**
- **A.24-05-017** / Application of BALBOA ISLAND FERRY, INC. (VCC-2), a California Corporation, to increase the baseline rates for its vessel common carrier service and to obtain a Zone of Rate Freedom. / **10/03/2024 Scoping Ruling issued.**
- **A.24-07-009** / Application of Crosby Street Transit LLC for authority to operate as a passenger stage corporation in the County of San Francisco and to establish a Zone of Rate Freedom (ZORF) fare structure. / **10/31/2024 Ruling issued granting confidential treatment of financial records.**

Joint Agency Collaboration/Outreach/Training

Joint Agency Collaboration. Information sharing and collaboration with other transportation agencies is a critical part of TLAB’s work.

- Bi-monthly TLAB Staff and CARB Staff coordination meeting on the Clean Miles Standard
- Bi-monthly Staff Work Group meeting between TLAB and Department of Motor Vehicles Autonomous Vehicles Branch

Outreach and Education. TLAB provides outreach and education to potential and current carriers through presentations on application fundamentals at venues such as SFO and LAX, and attendance at functions sponsored by transportation-related organizations such as the Greater California Livery Association and the California Bus Association.

Training. TLAB managers and staff regularly attend all trainings required by the Commission, as well as trainings for developing work skills and industry-specific trainings. For example:

- New Employee Training
- Supervisory Development Training
- Cybersecurity Training

TRANSPORTATION ENFORCEMENT BRANCH (TEB)

The Transportation Enforcement Branch (TEB) regulates Charter-Party Carriers of Passengers (TCP) (e.g., limousines, airport shuttles, autonomous vehicles while in passenger service, chartered and scheduled bus operators, Transportation Network Companies (TNC) and vessels in California to safeguard the public by ensuring compliance with Commission General Orders (GO), Public Utilities (PU) Codes, and other applicable laws and regulations. TEB conducts our core safety assurance through compliance inspections, investigations, and enforcement activities. TEB also promotes safety by conducting outreach activities for passenger carriers, training for law enforcement on applicable General Order regulations, and reviews all public complaints that it receives.

Consistent with the Commission’s Strategic Directives¹ and Enforcement Policy,² TEB developed and utilizes a Safety Management System that is implemented through the following pillars: Transportation Safety Assurance, Transportation Risk Management, and Transportation Safety Promotion.

Transportation Safety Management System

TEB reports the following progress for October 2024 for the following program elements.

Transportation Safety Assurance – Assuring the Commission’s regulated entities comply with the law and have sufficient training and resources to ensure the safety of the public, their workers, and the environment. For TEB, this includes Investigations, Field Operations, and related Enforcement Activities.

- Transportation Enforcement Field and Airport Operations:
 - » Dodger Stadium
 - » Folsom
 - » Fresno Yosemite International Airport
 - » Levis Stadium
 - » Napa
 - » San Diego Gaslamp District
 - » Sonoma County Airport

¹ [CPUCs Strategic Directives \(ca.gov\)](#)

² [CPUC Adopts Enforcement Policy to Promote Maximum Compliance, Transparency, and Public Safety](#)

- Formal Enforcement Proceedings:
I.21-12-001/Uber Technologies, Inc. (Uber), and Uber Black Sub-carriers/ALJ Lirag/Commissioner Baker. On August 20, 2024, the Presiding Officer, ALJ Lirag, issued a Proposed Decision.
 - » On September 19, 2024, CPED filed an appeal of the Presiding Officers Decision.
- Transportation Safety Complaint Referrals:
 - » For the month of October 2024, TEB received a total of 45 complaints from CAB and other sources:

Table 2. Transportation Safety Complaint Referrals

Complaints Referred By:	Received
San Francisco Ground Transportation Unit (SFO GTU)	16

Consumer Affairs Branch (CAB)	8
Transportation Licensing and Analysis Branch (TLAB)	5
Safety Enforcement Division (SED)	1
Executive Office	1
Los Angeles Police Department (LAPD)	1
San Diego Airport (SAN)	1

Transportation Risk Management – Continually identifying, assessing, and reducing operational risks through mitigation measures faced or posed by the transportation carriers the CPUC regulates. Continued monitoring of information, including but not limited to data obtained from field enforcement operations for emerging trends and any associated risks above the risk tolerance level.

Transportation Safety Promotion – Supporting efforts to assure that the public and regulated transportation entities can make informed choices and know how to respond to unsafe situations. For TEB, this includes Training and Education, Outreach Efforts with Industry and Law Enforcement, and Commission Engagement.

- Sonoma County Airport (STS) Training
- Semi-Annual check-in with the California Ground Transportation Regulatory Group

UTILITIES ENFORCEMENT BRANCH (UEB)

UEB protects California utility consumers from fraud and abuse by developing enforcement mechanisms and ensuring service providers comply with consumer protection laws and regulations. UEB investigates alleged violations by utilities, including communications (both wireline and wireless), energy (both electric and gas), and water companies. When sufficient evidence of violation is uncovered, UEB brings cases before the Commission to seek appropriate penalties and remedies for consumers.

Monthly Highlights

- **Calico Technologies (A.24-08-014):** On October 5, 2024, CPED protested Calico Technologies' application for a Certificate of Public Convenience & Necessity (CPCN). CPED alleges that Calico committed Rule 1.1 violation by failing to disclose a bankruptcy filing.
- **Silicon Valley Clean Energy Authority (SVCEA) RA Citation Appeal (K.23-11-015):** On October 11, 2024, CPED and SVCEA filed Reply briefs. CPED argued that the totality of the circumstances favor upholding the full amount of the citation.
- **San Diego Community Power (SDCP) RA Citation Appeal (K.24-05-026):** On October 18, 2024, SDCP and CPED filed a joint statement in response to ALJ Afary's September 17, 2024 ruling on disputed facts and schedule.
- **Foothill Education Technology Partnership (FETP) Administrative Enforcement Order (AEO) (H.24-02-005):** On October 24, 2024, ALJ Kelly issued an email ruling denying FETP's motion for a Special Appearance by its CEO, Mr. Creighton Grenoble to dismiss him from the AEO on the basis that the Commission lacked personal jurisdiction over him. The Special Appearance Motion was denied because Mr. Grenoble is not a party and said motion failed to comply with Rule 1.4, which makes no provision for a non-party to make a special appearance or file a motion.
- **Shell Energy North America (SENA) RA Citation Appeal (K.21-11-018):** On October 25, 2024, the Commission issued Resolution ALJ-463, denying SENA's appeal and closing the proceeding. Resolution ALJ-463 found that SENA has not met its burden of rebutting CPED's demonstration that the violation occurred and failed to meet its burden of persuasion that the citation penalty should be reduced or excused.

Key Activities

UEB is working on a total of 206 cases. Investigations center primarily on Core Transport Agent (CTA) Unauthorized Enrollment, Application Review/Protest, and Resource Adequacy. UEB's cases come from a variety of sources, with Inter-Division referrals and UEB's own scanning activities playing key roles.

Figure 5. UEB Total Number of Cases by Type as of October 31, 2024

Citations/Fines/Reparation

UEB did not issue any fines or citations for the month of October 2024.

Cumulative 2024 fines, reparations and penalties imposed from UEB’s cases are shown below

Table 8. UEB Fines, Reparations, and Penalties

Date	Citations/Fines/Reparation
January to September 2024	\$16,849,471
October 2024	\$0
Cumulative 2024	\$16,849,471

- Resource Adequacy (RA) Citation Program:** UEB issues citations and levies fines to enforce Load Serving Entities’ (LSE) compliance with system, local, and flexible resource adequacy requirements pursuant to Resolution E-4195, as modified by Decisions 10-06-036, Decisions 10-06-038, 11-06-022, 14-06-050, 19-06-026, 20-06-031, 21-06-029, 22-06-050 and 23-06-029. For the month of October 2024, UEB did not issue any RA citations.
- Disconnection Citation Program:** UEB issues citations to enforce compliance with the disconnections-related consumer protection rules in D.20-06-003. This citation program is applicable to Southern California Edison Company (SCE), Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), and Southern California Gas Company (SoCalGas), collectively referred to as California’s large investor-owned utilities (IOUs).
- Core Transport Agent (CTA):** UEB reviews CTA-related complaints received by the Commission to enforce compliance with the standards for verification of change in provider requirements in D. 18-02-002, and to identify acts constituting grounds for suspension or revocation of registration pursuant to Pub. Util. Code Section 983.5.

In October, UEB reviewed 154 CTA-related complaints that Consumer Affairs Branch (CAB) received from the prior month (September 2024) and identified 26 needing investigation for potential unauthorized enrollment. Staff issued 9 data requests for proof of enrollment authorizations. UEB received proof of enrollment authorizations for 24 customers; and 2 customers were not enrolled with the subject CTA. Staff is also contacting customers to confirm the legitimacy of the proof of authorizations. Therefore, staff investigation in October is still ongoing.

Compliance with Ordering Paragraphs

There were no new Ordering Paragraphs added to UEB’s COPS tracker for the month of October. UEB was responsible for 41 separate Ordering Paragraphs. As of October 2024, 41 of the Ordering Paragraphs (representing 100%) have been complied with, thus none are out of compliance.

Ordering Paragraphs related to UEB’s work are attributable to the imposition of fines, adoption of settlements, ordering of consumer refunds or reparation and other remedies and corrective actions, including reporting requirements, resulting from UEB’s investigations of violations of law and wrongdoing against consumers.

The numbers reported above tracks compliance with ordering paragraphs assigned to UEB and do not include tracking for compliance with payment of fines, penalties, surcharges, or the like, which are assigned to Fiscal Office under the COPs system. However, UEB staff also tracks such payments separately in our case management system and informs fiscal of any identified issues.

Outreach/Training/Other Activities

SNAP Summary: On October 24, 2024, the FCC discussed its role in disaster responses affecting communications in states. Most important is having a disaster plan prior to the disaster. State agencies working with the FCC are good at having these plans and implementing them at the state level. FCC provides four general areas of focus during and after a disaster: 1) Situational Awareness 2) Status of Communication Services 3) Discovering Issues Leading to Further Loss of Communications Services and 4) Managing Disaster Information Reporting System. The FCC is very good at managing the sharing of information and coordinating among different agencies during these disasters.
