Ms. Rachel Peterson  
Executive Director  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, California 94102

**Re: Activation of SCE's CEMA as the result of the March 2024 Severe Winter Storm in Los Angeles, San Bernardino, Santa Barbara, and Ventura Counties**

Dear Ms. Peterson:

This letter is to inform you that Southern California Edison Company (SCE) has activated its Catastrophic Event Memorandum Account (CEMA) effective March 1, 2024, to restore service to customers, replace infrastructure, and repair damage to its facilities from the severe winter storm in Los Angeles, San Bernardino, Santa Barbara, and Ventura counties, within SCE's service territory.

Resolution No. E-3238 (Resolution), issued on July 24, 1991, and Public Utilities Code Section 454.9, which codified the CEMA process, set forth the criteria for utilities to use the CEMA, providing, among other things that its "use will be restricted to events declared disasters by competent state or federal authorities." On June 21, 2024, and May 3, 2024, respectively, Governor Gavin Newsom declared a disaster in Los Angeles, San Bernardino, Santa Barbara, and Ventura counties due to the severe winter storm causing heavy rains, mountain snow, thunderstorms, flooding, landslides, and high winds causing property damage, power outages, and threatening critical infrastructure. The Resolution specifically allows for a utility to use its CEMA for costs resulting from declared disasters in order to (1) restore service to customers, (2) repair, replace, or restore damaged facilities, and (3) comply with governmental agency orders in connection with events declared disasters by competent state or federal authorities. SCE's Commission-approved CEMA tariff states: "If a Catastrophic Event occurs SCE shall, if possible, inform the Executive Director by letter within 30 days after the Catastrophic Event, if SCE has started booking costs into the CEMA." This letter provides notice to the Commission of SCE's intent to seek recovery of costs related to this severe winter storm through the CEMA.

At this time, SCE has not yet developed a complete assessment of our system or a detailed estimate of the costs incurred to restore service to our customers and to repair our facilities. SCE's review is ongoing.

Should you have any questions regarding this matter, please contact me or Sue DiBernardo of my staff at 626-302-4353. Thank you for your attention to this matter.

Best regards,

/s/ Connor J. Flanigan
