PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

**PUBLIC UTILITIES COMMISSION REPORT PURSUANT TO
PUBLIC UTILITIES CODE SECTION 910.1****Introduction**

As the state's primary regulator of investor-owned electric, gas, water, transportation and telecommunication services, the California Public Utilities Commission (Commission) is responsible for the development of effective regulatory constructs to ensure that these services are delivered safely, affordably, reliably, and environmentally responsibly. The Commission carries out this important task through the management of public decision-making processes, known as proceedings, that solicit the expertise, perspectives, and input from stakeholder groups representing a wide range of interests and views. These proceedings ultimately lead to the creation, modification, or improvement of new and existing rules that are designed to achieve public interest objectives for the utility services overseen by the Commission.

Public Utilities Code Section 910.1 requires the Commission to report annually on the status of its proceedings, specifically, on timeliness in resolving cases, information on the disposition of applications for rehearing, and the number of days that Commissioners presided in hearings. The Commission submits this report for the reporting period of calendar year 2024.

In addition, Public Utilities Code Section 1701.1 et seq. requires that regulatory matters before the Commission be resolved within certain time periods, depending on the categorization of a proceeding. Prior to January 1, 2017, Public Utilities Code Sections 1701.1 et seq., the requirement for scoping memos and the statutory deadlines, did not apply to proceedings that were not subject to evidentiary hearing. However, Senate Bill 215 (Leno, Stats. 2016, ch. 807), amended Sections 1701.1 et seq. to extend their provisions to all proceedings regardless of whether they are subject to evidentiary hearing.

There are four types of proceeding categories: adjudicatory, ratesetting, quasi-legislative, and catastrophic wildfire. Adjudicatory proceedings investigate and adjudicate possible violations of state or Commission rules and must be resolved within 12 months. Ratesetting proceedings set or investigate rates that regulated entities charge customers; quasi-legislative

proceedings establish policies or rules affecting regulated entities. Both ratesetting and quasi-legislative proceedings must be resolved within 18 months, unless a longer deadline is set by the assigned Commissioner's scoping memo or a Commission order extending the statutory time period. Finally, in catastrophic wildfire proceedings, a proposed decision must be issued within 12 months.

Commission proceedings are comprehensive, stakeholder informed decision-making processes that focus on producing the most desirable regulatory solutions to some of the state's most critical electric, gas, telecommunications, water, and transportation utility issues. The Commission also hears individual customer complaints against a utility. A proceeding is closed when key matters have been decided or are considered fully resolved by the parties. At times, proceedings that have had all substantive issues decided may remain open or be reopened because of stakeholder objections. These objections may take the form of applications for rehearing, petitions for modification, and various motions. Commission proceedings can be complex and require the consideration of all perspectives provided by stakeholders throughout the proceeding. Before reaching a decision on regulatory and policy matters, Administrative Law Judges and Commissioners carefully review and consider the contributions of stakeholders, including formal testimony, comments, and reply comments to the Rulings and Proposed Decisions in a proceeding, keeping in mind the importance of resolving issues in a timely manner. Stakeholders to proceedings, who typically become parties to the proceeding, include the regulated investor-owned utilities, industry trade associations, consumer advocacy groups, non-profit organizations, local governments, and other interested participants. Participation in proceedings by these organizations is critical to ensure that the decisions made are well-informed and provide balanced solutions to the complex regulatory issues before the Commission.

As described in this report, 170 out of 173 proceedings resolved by the Commission in 2024 that were subject to statutory deadlines were completed consistent with statutory timeframes, either due to resolution within the statutory deadlines, or because a scoping memo establishing a longer deadline, or a timely extension order, was issued as permitted by law. This report provides details regarding whether proceedings were resolved in a timely manner with or without extension orders. More detailed information is contained in the attached Appendices A-J. Appendix K reports the days that Commissioners presided in hearings, and Appendix L reports information on the disposition of applications for rehearing.

Lastly, in an effort to improve its decision-making processes, the Commission continuously assesses and reassesses its management of proceedings. Improvements are focused on ensuring that these proceedings are accessible to interested

stakeholders, preserve their due process rights as parties and ultimately lead to a resolution of matters in a reasonable timeframe. As the Commission continues to develop refinements to decision-making processes that balance timeliness with thoughtful public participation and effective record development, the Commission is always open to hearing the innovative ideas of the public, stakeholders, and the Legislature.

Description of Attached Appendices A-L

Appendix A – Proceedings Initiated Before January 1, 2017, not Subject to Evidentiary Hearings, Active During 2024 (Resolved and not Resolved)

Appendix A lists proceedings active during 2024 that were initiated prior to January 1, 2017, and not subject to evidentiary hearings. Of the 3 proceedings, 2 were resolved during 2024. The remaining proceeding is currently active and on schedule.

Appendix B – Complaints Under the Expedited Complaint Procedure, Active During 2024

Appendix B lists 53 Expedited Complaint Proceedings (ECP) that are small complaint cases handled under special procedures analogous to “small claims” court. These proceedings are not subject to statutory deadlines. We are reporting these matters separately because the Commission has adopted more aggressive timelines for these cases than the statutory timelines for other proceedings. The Commission has established an informal 132-day target for this type of proceeding to be resolved.

During 2024, 33 of these 53 proceedings were resolved. Twenty proceedings remain active.

Appendix C – Proceedings Active During 2024 – Proceedings Resolved

During 2024, the Commission timely resolved 170 proceedings (25 adjudicatory, 141 ratesetting, 3 quasi-legislative; and 1 proceeding resolved rehearing-related issues that were not categorized). 3 proceedings did not meet the prescribed statutory deadline.

Appendix D – Proceedings Active During 2024 – Proceedings not Resolved

During 2024, there was 1 active, unresolved proceeding that was initiated prior to January 1, 2017, and subject to an evidentiary hearing, and 259 active, unresolved proceedings that were initiated after January 1, 2017. 259 proceedings (31 adjudicatory, 35 quasi-legislative and 186 ratesetting) are currently on schedule, taking into account statutory deadlines, orders extending statutory timeframes, and scoping memos establishing deadlines that in some instances exceed basic statutory timeframes. Seven proceedings are pending assignment and have not been categorized. One proceeding was active but had not been timely extended as of December 31, 2024. Three proceedings are addressing rehearing-related issues and categorization will be addressed as necessary if the Commission subsequently grants rehearing.

Appendix E – Petitions for Valuation of Utility Property

Petitions for Valuation of Utility Property are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Sections 1401-1421. Appendix E shows that one such proceeding was active during 2024 and currently on schedule.

Appendix F – Petitions for Rulemaking

Petitions for Rulemaking are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Section 1708.5. The Commission is mandated to issue a decision in this type of proceeding within six months. Appendix F shows that three such proceedings were resolved in 2024, and one remains active.

Appendix G – Citation Appeals and General Order 156 Appeals

Resolution ALJ-377 established the Citation Appeal and General Order 156 Appeal process (April 28, 2020) based on the pilot program established by ALJ-299 (June 26, 2014). Under ALJ-377, appellate records are easily accessible, thus enhancing due process in these expeditious proceedings. Appendix G shows that 37 such appeals were active during 2024 and that the Commission has issued 15 resolutions and 2 decisions addressing the appeals. Twenty appeals are active.

Appendix H - Requests for Hearing on Administrative Enforcement Orders Active During Calendar Year 2024

Resolution M-4846 established the process to Request a Hearing on an Administrative Enforcement Order. Under Resolution M-4846, requests for hearing follow the procedural rules set forth in Resolution ALJ-377 that provide easily accessible appellate records thereby enhancing due process and transparency of the Commission Enforcement Policy. One proceeding was active during 2024.

Appendix I – 60-90 Day Period for Adoption of Decision

The Legislature has also established guidelines for the length of time between the issuance of a proposed decision and the adoption of a final decision by the Commission, applicable to all ratesetting proceedings and to quasi-legislative proceedings requiring a hearing. The guidelines are either 60 or 90 days depending on certain circumstances.

During 2024, the Commission considered 123 proposed decisions subject to these guidelines. Thirteen proposed decisions are pending resolution. The Commission adopted 108 decisions subject to these guidelines. 100 decisions were adopted within the guidelines. Eight proposed decisions were resolved outside the guidelines. One proposed decision was withdrawn at the April 18, 2024 Commission Meeting. One proposed decision was superseded by a May 10, 2024 proposed decision.

Appendix J – Issuance of Presiding Officer Decisions and Proposed Decisions

The Legislature has also established guidelines for the length of time between the submission of a matter for decision and the issuance of the proposed decision. During 2024, the Commission issued 13 presiding officer decisions and 124 proposed decisions in such proceedings. Out of these 137 decisions, 87 were issued within the 60-day and 90-day timelines. Two proceedings required oral arguments after the proposed decisions were issued; consequently the submission time was inapplicable.

Appendix K – Issuance of Extension Orders and Scoping Memos

The Legislature has also established a process for extending the statutory deadlines through issuance of an extension order. During 2024, the Commission issued 116 extension orders in 101 separate proceedings (more than one extension order was issued in some proceedings), including proceedings which remained open at the end of 2024.

The assigned Commissioners issued 130 scoping memos (including amended scoping memos) in 124 proceedings.

Appendix L – Commissioner Attendance

Appendix L reports Commissioners' attendance at hearings during the period. The table shows that Commissioners attended 65 days of hearings.

Appendix M – Information on Disposition of Applications for Rehearing

Appendix M reports information on the disposition of applications for rehearing in 2024.

Conclusion

In summary, this report, submitted in compliance with Public Utilities Code Section 910.1, provides the public and the Legislature information on Commission action in formal proceedings. Specifically, 532 proceedings were active at the Commission during the 2024 reporting period. During 2024, 229 of these proceedings were resolved. 98.2% of the proceedings subject to statutory deadlines were resolved consistent with statutory requirements, taking into account scoping memos, which in some instances set deadlines longer than basic statutory timeframes, and orders extending the statutory timeframes adopted by the Commission, as permitted by statute. The Commission is committed to achieving compliance with the statutory guidelines.
