Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Los Altos District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 45,705 feet of aging water mains, install additional water treatment to benefit safety, and add a new well site to improve supply.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Los Altos District (with a 5/8”x3/4” meter and using 6,732 gallons, or 9 Ccf*, per month) would increase by approximately \$3.77, or 4.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	9 Ccf (6,732 gallons)	\$78.01	\$3.77	4.8%	\$9.26	11.3%	\$9.87	10.8%
Residential enrolled in Customer Assistance Program	9 Ccf (6,732 gallons)	\$58.98	\$1.38	2.3%	\$6.82	11.3%	\$7.27	10.8%

These adjustments to rates would allow for district revenue increases of \$9,070,523 in 2026, \$6,542,773 in 2027, and \$6,965,574 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 33,967,097	\$ 6,276,094	18.5%	\$ 4,396,534	10.9%	\$ 4,663,108	10.4%
Nonresidential Metered Service*	\$ 14,504,167	\$ 2,723,046	18.8%	\$ 2,069,522	12.0%	\$ 2,221,620	11.5%
Recycled Metered Service	\$ 507,000	\$ 50,500	10.0%	\$ 62,686	11.2%	\$ 66,819	10.8%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Marysville District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 5,676 feet of aging water mains, make improvements to water treatment, rebuild an existing well, and develop additional water supply.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Marysville District (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$3.23, or 6.9%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$46.83	\$3.23	6.9%	\$5.80	11.6%	\$6.41	11.5%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$28.03	\$2.68	9.6%	\$3.53	11.5%	\$3.91	11.4%

These adjustments to rates would allow for district revenue increases of \$978,383 in 2026, \$662,784 in 2027, and \$737,386 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 2,274,105	\$ 497,580	21.9%	\$ 321,841	11.6%	\$ 355,792	11.5%
Nonresidential Metered Service*	\$ 2,178,351	\$ 476,725	21.9%	\$ 338,336	12.7%	\$ 378,335	12.6%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the North Valley Region – Oroville Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 8,861 feet of aging water mains, upgrade a surface water treatment facility to support safety, and retrofit a storage tank for system reliability.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the North Valley Region’s Oroville area (with a 5/8”x3/4” meter and using 4,488 gallons, or 6 Ccf*, per month) would increase by approximately \$5.19, or 11.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	6 Ccf (4,488 gallons)	\$43.81	\$5.19	11.8%	\$2.25	4.6%	\$2.75	5.4%
Residential enrolled in Customer Assistance Program	6 Ccf (4,488 gallons)	\$23.66	\$3.74	15.8%	\$1.27	4.6%	\$1.55	5.4%

These adjustments to rates would allow for area revenue increases of \$1,506,544 in 2026, \$642,340 in 2027, and \$768,466 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 2,047,945	\$ 529,861	25.9%	\$ 129,789	5.0%	\$ 157,469	5.8%
Nonresidential Metered Service*	\$ 3,628,481	\$ 943,751	26.0%	\$ 262,928	5.8%	\$ 315,148	6.5%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Los Angeles County Region – Palos Verdes Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 38,365 feet of aging water mains, and make security enhancements to help protect the water system infrastructure.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Los Angeles County Region’s Palos Verdes area (with a 5/8”x3/4” meter and using 8,229 gallons, or 11 Ccf*, per month) would increase by approximately \$5.88, or 6.5%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	11 Ccf (8,229 gallons)	\$90.25	\$5.88	6.5%	\$4.69	4.9%	\$5.97	5.9%
Residential enrolled in Customer Assistance Program	11 Ccf (8,229 gallons)	\$70.31	\$2.21	3.1%	\$3.77	5.2%	\$4.77	6.3%

These adjustments to rates would allow for area revenue increases of \$9,987,255 in 2026, \$3,981,750 in 2027, and \$5,062,171 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 55,420,757	\$ 7,883,757	14.2%	\$ 3,090,698	4.9%	\$ 3,935,039	5.9%
Nonresidential Metered Service*	\$ 14,205,716	\$ 1,906,690	13.4%	\$ 831,461	5.2%	\$ 1,054,077	6.2%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Salinas Valley Region – Salinas Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 28,191 feet of aging water mains, construct three new wells to augment water supply, and upgrade existing water treatment sites.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Salinas Valley Region’s Salinas area (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$6.61, or 14.7%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$45.04	\$6.61	14.7%	\$5.22	10.1%	\$5.91	10.4%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$28.09	\$3.59	12.8%	\$3.21	10.1%	\$3.63	10.4%

These adjustments to rates would allow for area revenue increases of \$10,101,982 in 2026, \$5,647,294 in 2027, and \$6,395,296 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 23,816,193	\$ 5,406,901	22.7%	\$ 2,923,172	10.0%	\$ 3,305,288	10.3%
Nonresidential Metered Service*	\$ 20,472,093	\$ 4,647,193	22.7%	\$ 2,685,863	10.7%	\$ 3,050,094	11.0%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Selma District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 7,100 feet of aging water mains, build a new well to increase water supply, and purchase land for a new well site to meet demand.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Selma District (with a 5/8”x3/4” meter and using 8,977 gallons, or 12 Ccf*, per month) would increase by approximately \$6.09, or 14.3%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change		Proposed 2027 Bill Change		Proposed 2028 Bill Change	
Residential	12 Ccf (8,977 gallons)	\$42.58	\$6.09	14.3%	\$4.66	9.6%	\$5.73	10.7%
Residential enrolled in Customer Assistance Program	12 Ccf (8,977 gallons)	\$30.93	\$3.67	11.9%	\$3.40	9.8%	\$4.18	11.0%

These adjustments to rates would allow for district revenue increases of \$1,617,816 in 2026, \$692,891 in 2027, and \$851,255 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase		Proposed 2027 Revenue Increase		Proposed 2028 Revenue Increase	
Residential Metered Service	\$ 4,166,095	\$ 772,677	18.5%	\$ 472,084	9.6%	\$ 580,014	10.7%
Nonresidential Metered Service*	\$ 1,827,318	\$ 338,881	18.5%	\$ 215,859	10.0%	\$ 265,438	11.1%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public

authority customers) and do not have a separate tariff. ****The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.**

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the South Bay Region (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 5,421 feet of aging water mains, make seismic retrofits to withstand earthquakes, and upgrade the surface water intake to enhance water supply.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the South Bay Region (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately -\$0.34, or -0.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change	Proposed 2027 Bill Change	Proposed 2028 Bill Change
Residential	7 Ccf (5,236 gallons)	\$44.17	(\$0.34) -0.8%	\$2.92 6.7%	\$3.05 6.5%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$30.68	(\$0.85) -2.8%	\$1.95 6.5%	\$2.07 6.5%

These adjustments to rates would allow for district revenue increases of \$7,664,542 in 2026, \$8,239,065 in 2027, and \$8,789,691 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase	Proposed 2027 Revenue Increase	Proposed 2028 Revenue Increase
Residential Metered Service	\$ 45,352,169	\$ 3,054,764 6.7%	\$ 3,178,745 6.6%	\$ 3,391,788 6.6%
Nonresidential Metered Service*	\$ 60,270,932	\$ 2,980,729 4.9%	\$ 3,929,161 6.2%	\$ 4,428,292 6.6%
Recycled Metered Service	\$ 9,883,915	\$ 1,525,939 15.4%	\$ 1,063,845 9.3%	\$ 898,638 7.2%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Stockton District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 88,405 feet of aging water mains, install a new generator, upgrade a storage tank to extend its life, and rebuild a well to help keep supply reliable.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Stockton District (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$4.55, or 9.3%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change	Proposed 2027 Bill Change	Proposed 2028 Bill Change
Residential	7 Ccf (5,236 gallons)	\$49.12	\$4.55 9.3%	\$3.72 6.9%	\$4.05 7.1%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$32.50	\$2.31 7.1%	\$2.45 7.0%	\$2.67 7.2%

These adjustments to rates would allow for district revenue increases of \$10,354,958 in 2026, \$5,462,031 in 2027, and \$5,944,653 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase	Proposed 2027 Revenue Increase	Proposed 2028 Revenue Increase
Residential Metered Service	\$ 38,494,408	\$ 5,954,424 15.5%	\$ 3,113,295 7.0%	\$ 3,388,305 7.1%
Nonresidential Metered Service*	\$ 28,099,121	\$ 4,345,131 15.5%	\$ 2,305,075 7.1%	\$ 2,510,066 7.2%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public

authority customers) and do not have a separate tariff. ****The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.**

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Travis District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average bill for the Travis District would increase by approximately \$6.45, or 8.7%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

Bill Increase

<i>Customer</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>	<i>Proposed 2027 Bill Change</i>	<i>Proposed 2028 Bill Change</i>
Flat Rate	\$272,751.66	\$88,856.54 32.6%	\$50,032.47 13.8%	\$53,876.30 13.1%

These adjustments to rates would allow for district revenue increases of \$1,066,017 in 2026, \$600,390 in 2027, and \$646,516 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Westlake District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle include: replace approximately 5,430 feet of aging water mains, add security enhancements to protect the water system, and install advanced metering to support conservation and improve efficiency.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Westlake District (with a 5/8”x3/4” meter and using 7,481 gallons, or 10 Ccf*, per month) would increase by approximately \$10.35, or 15.2%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	10 Ccf (7,481 gallons)	\$68.18	\$10.35	15.2%	\$3.79	4.8%	\$4.21	5.1%
Residential enrolled in Customer Assistance Program	10 Ccf (7,481 gallons)	\$51.00	\$2.95	5.8%	\$2.71	5.0%	\$2.85	5.0%

These adjustments to rates would allow for district revenue increases of \$4,447,138 in 2026, \$1,114,479 in 2027, and \$1,477,021 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 14,590,389	\$ 3,003,051	20.6%	\$ 731,321	4.2%	\$ 934,187	5.1%
Nonresidential Metered Service*	\$ 5,807,318	\$ 1,195,579	20.6%	\$ 361,210	5.2%	\$ 460,077	6.2%
Recycled Metered Service	\$ 1,172,131	\$ 240,950	20.6%	\$ 16,403	1.2%	\$ 77,544	5.4%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Willows District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle include: replace approximately 4,984 feet of aging water mains, upgrade water storage, and install water treatment on a well to keep providing safe, clean water.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Willows District (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$4.53, or 8.4%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$54.18	\$4.53	8.4%	\$4.23	7.2%	\$5.01	8.0%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$32.91	\$2.87	8.7%	\$2.59	7.2%	\$3.07	8.0%

These adjustments to rates would allow for district revenue increases of \$744,204 in 2026, \$315,619 in 2027, and \$372,872 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 1,996,035	\$ 445,782	22.3%	\$ 178,670	7.3%	\$ 211,806	8.1%
Nonresidential Metered Service*	\$ 1,327,108	\$ 296,390	22.3%	\$ 131,211	8.1%	\$ 155,170	8.8%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Dixon District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 3,135 feet of aging water mains, add security enhancements to help protect the water system, and redesign system pressure for reliability.
- Cal Water is proposing to combine the rates of the Dixon and Livermore Districts into a new Diablo Ranch Region to help improve affordability, take advantage of administrative efficiencies, and stabilize rates long-term.

How could this affect my water bill?

With consolidation: If Cal Water’s proposal for consolidation **is** approved by the CPUC as filed, beginning in 2026, the average residential bill in the Dixon District (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$6.24, or 8.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase With Consolidation

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change	Proposed 2027 Bill Change	Proposed 2028 Bill Change
Residential	7 Ccf (5,236 gallons)	\$71.05	\$6.24 8.8%	\$2.43 3.1%	\$3.19 4.0%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$45.63	\$4.85 10.6%	\$1.86 3.7%	\$2.23 4.3%

These adjustments to rates would allow for district revenue increases of -\$61,101 in 2026, \$262,106 in 2027, and \$290,518 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type With Consolidation**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase	Proposed 2027 Revenue Increase	Proposed 2028 Revenue Increase
Residential Metered Service	\$ 3,904,594	\$ 1,278,140 32.7%	\$ 196,424 0.0%	\$ 225,762 0.0%
Nonresidential Metered Service*	\$ 1,107,771	\$ 363,536 32.8%	\$ 64,448 17.7%	\$ 63,464 14.8%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

Without consolidation: If Cal Water’s proposal for consolidation **is not** approved by the CPUC as filed, beginning in 2026, the average residential bill in the Dixon District (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf, per month) would

increase by approximately \$16.00, or 22.5%, per month. These numbers do not include temporary surcharges and credits. Again, over the course of the 18-month review process, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

Average Residential Customer Bill Increase Without Consolidation

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$71.05	\$16.00	22.5%	\$6.56	7.5%	\$7.54	8.1%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$45.63	\$10.73	23.5%	\$4.34	7.7%	\$4.98	8.2%

These adjustments to rates would allow for district revenue increases of \$182,503 in 2026, \$564,536 in 2027, and \$648,702 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type Without Consolidation**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 3,904,594	\$ 1,468,555	37.6%	\$ 440,534	30.0%	\$ 506,099	26.5%
Nonresidential Metered Service*	\$ 1,107,771	\$ 416,667	37.6%	\$ 122,845	29.5%	\$ 141,312	26.2%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Livermore District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 19,414 feet of aging water mains, upgrade two wells and make storage tank improvements to help supply reliability, and enhance water treatment at multiple sources.
- Cal Water is proposing to combine the rates of the Dixon and Livermore Districts into a new Diablo Ranch Region to help improve affordability, take advantage of administrative efficiencies, and stabilize rates long-term.

How could this affect my water bill?

With consolidation: If Cal Water’s proposal for consolidation **is** approved by the CPUC as filed, beginning in 2026, the average residential bill in the Livermore District (with a 5/8”x3/4” meter and using 5,984 gallons, or 8 Ccf*, per month) would increase by approximately \$8.18, or 14.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase With Consolidation

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	8 Ccf (5,984 gallons)	\$55.12	\$8.18	14.8%	\$4.47	7.1%	\$5.44	8.0%
Residential enrolled in Customer Assistance Program	8 Ccf (5,984 gallons)	\$39.82	\$4.40	11.1%	\$3.35	7.6%	\$3.85	8.1%

These adjustments to rates would allow for district revenue increases of \$8,039,414 in 2026, \$2,776,222 in 2027, and \$3,149,849 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type With Consolidation**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 20,433,624	\$ 5,840,809	28.6%	\$ 1,985,936	0.0%	\$ 2,250,256	0.0%
Nonresidential Metered Service*	\$ 7,982,888	\$ 2,174,036	27.2%	\$ 773,836	35.6%	\$ 881,786	29.9%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

Without consolidation: If Cal Water’s proposal for consolidation **is not** approved by the CPUC as filed, beginning in 2026,

the average residential bill in the Livermore District (with a 5/8"x3/4" meter and using 5,984 gallons, or 8 Ccf, per month) would increase by approximately \$7.18, or 13.0%, per month. These numbers do not include temporary surcharges and credits. Again, over the course of the 18-month review process, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

Average Residential Customer Bill Increase **Without** Consolidation

These adjustments to rates would allow for district revenue increases of \$7,903,415 in 2026, \$2,443,094 in 2027, and \$2,753,384 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type **Without** Consolidation**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>	<i>Proposed 2027 Revenue Increase</i>	<i>Proposed 2028 Revenue Increase</i>
Residential Metered Service	\$ 20,433,624	\$ 5,665,744 27.7%	\$ 1,737,958 30.7%	\$ 1,960,430 26.5%
Nonresidential Metered Service*	\$ 7,982,888	\$ 2,213,314 27.7%	\$ 687,889 31.1%	\$ 775,287 26.7%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Bay Area Region - Bayshore Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 84,932 feet of aging water mains, install a new generator to keep the system reliable, and retrofit/upgrade water storage.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Bay Area Region’s Bayshore area (with a 5/8”x3/4” meter and using 4,488 gallons, or 6 Ccf*, per month) would increase by approximately \$0.42, or 0.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change		Proposed 2027 Bill Change		Proposed 2028 Bill Change	
			\$	%	\$	%	\$	%
Residential	6 Ccf (4,488 gallons)	\$49.80	\$0.42	0.8%	\$3.71	7.4%	\$3.95	7.3%
Residential enrolled in Customer Assistance Program	6 Ccf (4,488 gallons)	\$35.25	-\$0.66	-1.9%	\$2.52	7.3%	\$2.68	7.2%

These adjustments to rates would allow for area revenue increases of \$16,653,942 in 2026, \$ 9,699,794 in 2027, and \$ 10,342,781 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase	Proposed 2027 Revenue Increase	Proposed 2028 Revenue Increase
Residential Metered Service	\$ 56,129,903	\$ 8,654,925 15.4%	\$ 4,767,845 7.4%	\$ 5,061,885 7.3%
Nonresidential Metered Service*	\$ 51,281,089	\$ 7,906,989 15.4%	\$ 4,872,040 8.2%	\$ 5,215,436 8.1%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Bay Area Region - Redwood Valley Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 5,421 feet of aging water mains, retrofit an existing treatment plant to keep the system reliable, and make tank improvements to benefit supply reliability.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Bay Area Region’s Redwood Valley area (with a 5/8”x3/4” meter and using 4,488 gallons, or 6 Ccf*, per month) would increase by approximately \$0.42, or 0.8%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	6 Ccf (4,488 gallons)	\$49.80	\$0.42	0.8%	\$3.71	7.4%	\$3.95	7.3%
Residential enrolled in Customer Assistance Program	6 Ccf (4,488 gallons)	\$35.25	(\$0.66)	-1.9%	\$2.52	7.3%	\$2.68	7.2%

These adjustments to rates would allow for area revenue increases of \$16,653,942 in 2026, \$ 9,699,794 in 2027, and \$ 10,342,781 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 56,129,903	\$ 8,654,925	15.4%	\$ 4,767,845	7.4%	\$ 5,061,885	7.3%
Nonresidential Metered Service*	\$ 51,281,089	\$ 7,906,989	15.4%	\$ 4,872,040	8.2%	\$ 5,215,436	8.1%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Los Angeles County Region – Antelope Valley Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 3,345 feet of aging water mains, make storage tank upgrades to benefit water supply, and install generators for system reliability.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Los Angeles County Region’s Antelope Valley area (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$5.73, or 12.6%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$45.42	\$5.73	12.6%	\$3.23	6.3%	\$4.06	7.5%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$31.31	\$2.56	8.2%	\$2.18	6.4%	\$2.73	7.6%

These adjustments to rates would allow for area revenue increases of \$324,036 in 2026, \$160,737 in 2027, and \$201,834 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 2,020,356	\$ 288,756	14.3%	\$ 159,840	6.9%	\$ 199,294	8.1%
Nonresidential Metered Service*	\$ 212,907	\$ 30,931	14.5%	\$ 14,941	6.1%	\$ 18,793	7.3%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Bakersfield District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 78,445 feet of aging water mains, construct a new 2.25 million-gallon storage tank and well, and upgrade a water treatment facility.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Bakersfield District (with a 5/8”x3/4” meter and using 8,977 gallons, or 12 Ccf*, per month) would increase by approximately \$8.71, or 18.2%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	12 Ccf (8,977 gallons)	\$47.87	\$8.71	18.2%	\$4.44	7.8%	\$5.18	8.5%
Residential enrolled in Customer Assistance Program	12 Ccf (8,977 gallons)	\$34.94	\$5.20	14.9%	\$3.15	7.9%	\$3.68	8.5%

These adjustments to rates would allow for district revenue increases of \$18,880,902 in 2026, \$9,873,460 in 2027, and \$11,529,225 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 64,326,151	\$12,515,553	19.5%	\$ 6,777,607	8.8%	\$ 7,918,327	9.5%

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Bear Gulch District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 53,543 feet of aging water mains, construct a new storage tank, and install new water treatment to keep providing safe, clean water.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Bear Gulch District (with a 5/8”x3/4” meter and using 5,984 gallons, or 8 Ccf*, per month) would increase by approximately \$6.45, or 8.7%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	8 Ccf (5,984 gallons)	\$73.76	\$6.45	8.7%	\$5.61	7.0%	\$6.16	7.2%
Residential enrolled in Customer Assistance Program	8 Ccf (5,984 gallons)	\$53.22	\$1.56	2.9%	\$3.91	7.1%	\$4.29	7.3%

These adjustments to rates would allow for district revenue increases of \$11,858,937 in 2026, \$5,415,782 in 2027, and \$5,943,537 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 57,478,913	\$10,046,031	17.5%	\$ 4,547,517	6.7%	\$ 4,987,867	6.9%
Nonresidential Metered Service*	\$ 10,254,447	\$ 1,792,243	17.5%	\$ 857,818	7.1%	\$ 942,520	7.3%

**Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.*

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the North Valley Region – Chico Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
 - Some of the key projects Cal Water proposes in this cycle are to: replace approximately 38,954 feet of aging water mains, install a new generator and construct a pump/storage facility to meet peak demands during wildfires and power interruptions.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the North Valley Region’s Chico area (with a 5/8”x3/4” meter and using 5,984 gallons, or 8 Ccf*, per month) would increase by approximately \$4.14, or 12.9%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change		Proposed 2027 Bill Change		Proposed 2028 Bill Change	
Residential	8 Ccf (5,984 gallons)	\$32.17	\$4.14	12.9%	\$3.00	8.3%	\$3.60	9.2%
Residential enrolled in Customer Assistance Program	8 Ccf (5,984 gallons)	\$19.35	\$3.14	16.2%	\$1.88	8.4%	\$2.25	9.3%

These adjustments to rates would allow for area revenue increases of \$7,770,692 in 2026, \$3,409,351 in 2027, and \$4,075,094 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase		Proposed 2027 Revenue Increase		Proposed 2028 Revenue Increase	
Residential Metered Service	\$ 17,041,466	\$ 4,225,768	24.8%	\$ 1,875,248	8.8%	\$ 2,244,203	9.7%
Nonresidential Metered Service*	\$ 12,872,177	\$ 3,189,628	24.8%	\$ 1,496,995	9.3%	\$ 1,791,263	10.2%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information regarding the Public Advocates Office, call (415) 703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Bay Area Region - Coast Springs Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 5,421 feet of aging water mains, retrofit an existing treatment plant to keep the system reliable, and make tank improvements to benefit supply reliability.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Bay Area Region’s Coast Springs area (with a 5/8”x3/4” meter and using 748 gallons, or 1 Ccf*, per month) would increase by approximately \$1.87, or 5.7%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

Customer Type	Monthly Usage	Current Bill	Proposed 2026 Bill Change		Proposed 2027 Bill Change		Proposed 2028 Bill Change	
Residential	1 Ccf (748 gallons)	\$32.54	\$1.87	5.7%	\$2.60	7.6%	\$2.77	7.5%
Residential enrolled in Customer Assistance Program	1 Ccf (748 gallons)	\$18.00	\$0.79	4.4%	\$1.41	7.5%	\$1.50	7.5%

These adjustments to rates would allow for area revenue increases of \$21,949 in 2026, \$15,753 in 2027, and \$16,905 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

Type of Service Provided	Current Revenue Requirement	Proposed 2026 Revenue Increase		Proposed 2027 Revenue Increase		Proposed 2028 Revenue Increase	
Residential Metered Service	\$ 144,092	\$ 17,850	12.4%	\$ 12,024	7.4%	\$ 12,790	7.4%
Nonresidential Metered Service*	\$ 20,552	\$ 4,098	19.9%	\$ 3,728	15.1%	\$ 4,116	14.5%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the East Los Angeles District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 31,590 feet of aging water mains, install new generators for system reliability, and construct a new well to meet supply demands.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the East Los Angeles District (with a 5/8”x3/4” meter and using 5,984 gallons, or 8 Ccf*, per month) would increase by approximately \$6.24, or 10.9%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	8 Ccf (5,984 gallons)	\$57.50	\$6.24	10.9%	\$3.92	6.2%	\$4.65	6.9%
Residential enrolled in Customer Assistance Program	8 Ccf (5,984 gallons)	\$41.17	\$3.86	9.4%	\$2.79	6.2%	\$3.31	6.9%

These adjustments to rates would allow for district revenue increases of \$8,989,775 in 2026, \$3,160,090 in 2027, and \$3,762,785 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 20,696,254	\$ 4,391,410	21.2%	\$ 1,511,743	6.0%	\$ 1,796,222	6.8%

Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Kern River Valley District (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: expand storage with new water tanks, replace an existing well and install corrosion control for system reliability, and improve water treatment at multiple sources.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Kern River Valley District (with a 5/8”x3/4” meter and using 2,244 gallons, or 3 Ccf*, per month) would increase by approximately -\$0.05, or -0.1%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	3 Ccf (2,244 gallons)	\$74.12	(\$0.05)	-0.1%	\$6.06	8.2%	\$6.77	8.4%
Residential enrolled in Customer Assistance Program	3 Ccf (2,244 gallons)	\$45.31	\$0.11	0.2%	\$3.03	6.7%	\$3.39	7.0%

These adjustments to rates would allow for district revenue increases of \$182,299 in 2026, \$1,054,170 in 2027, and \$1,183,337 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 8,018,694	\$ 155,028	1.9%	\$ 883,880	10.8%	\$ 986,761	10.9%
Nonresidential Metered Service*	\$ 1,112,085	\$ 27,288	2.5%	\$ 170,079	14.9%	\$ 196,545	15.0%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue

due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service to Increase Rates in 2026-2028 for the Salinas Valley Region – King City Area (Application 24-07-003)

Why am I receiving this notice?

On July 8, 2024, California Water Service (Cal Water) filed its 2024 Infrastructure Improvement Plan, known as a General Rate Case (GRC), Application (A.24-07-003) with the California Public Utilities Commission (CPUC). As part of the application, Cal Water is requesting to increase rates to fund needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, and business operations, as well as to adjust for inflation. If the CPUC approves the application, forecasted costs will be recovered over a three-year period, affecting your water bill no sooner than January 2026.

Why is Cal Water requesting this?

- Cal Water is required to file an application with the CPUC every three years so that water rates accurately reflect the cost of providing safe, clean, reliable tap water to customers.
- This multi-year plan enables the utility to upgrade and modernize the water system through proactive infrastructure improvements designed to keep water reliable for customers, make its communities safer, prevent small problems from getting bigger and more expensive to fix, increase sustainability, and provide high-quality service—both now and in the future.
- Some of the key projects Cal Water proposes in this cycle are to: replace approximately 3,960 feet of aging water mains, install new generators for system reliability, and retrofit and upgrade existing water storage.

How could this affect my water bill?

If Cal Water’s proposal is approved by the CPUC as filed, beginning in 2026, the average residential bill in the Salinas Valley Region’s King City area (with a 5/8”x3/4” meter and using 5,236 gallons, or 7 Ccf*, per month) would increase by approximately \$6.61, or 14.7%, per month. These numbers do not include temporary surcharges and credits. Over the course of the review process, which could take 18 months or more, some projects may be deferred or costs adjusted. Final rates approved may be lower than what was proposed.

*1 Ccf = 748 gallons

Average Residential Customer Bill Increase

<i>Customer Type</i>	<i>Monthly Usage</i>	<i>Current Bill</i>	<i>Proposed 2026 Bill Change</i>		<i>Proposed 2027 Bill Change</i>		<i>Proposed 2028 Bill Change</i>	
Residential	7 Ccf (5,236 gallons)	\$45.04	\$6.61	14.7%	\$5.22	10.1%	\$5.91	10.4%
Residential enrolled in Customer Assistance Program	7 Ccf (5,236 gallons)	\$28.09	\$3.59	12.8%	\$3.21	10.1%	\$3.63	10.4%

These adjustments to rates would allow for area revenue increases of \$10,101,982 in 2026, \$5,647,294 in 2027, and \$6,395,296 in 2028, which will offset the additional cost of needed infrastructure improvements, water system maintenance, water quality initiatives, safety measures, business operations, and to adjust for inflation.

Proposed Revenue Request by Customer Type**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2026 Revenue Increase</i>		<i>Proposed 2027 Revenue Increase</i>		<i>Proposed 2028 Revenue Increase</i>	
Residential Metered Service	\$ 23,816,193	\$ 5,406,901	22.7%	\$ 2,923,172	10.0%	\$ 3,305,288	10.3%
Nonresidential Metered Service*	\$ 20,472,093	\$ 4,647,193	22.7%	\$ 2,685,863	10.7%	\$ 3,050,094	11.0%

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff. **The sum of residential and nonresidential revenues will not equal total revenue due to other revenue sources such as construction meter charges, fire protection services, and recycled water.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt Cal Water's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review Cal Water's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notificación de la solicitud presentada por California Water Service para aumentar las tarifas en 2026-2028 correspondientes al distrito de Dixon (solicitud n.º 24-07-003)

¿Por qué recibo este aviso?

El 8 de julio de 2024, California Water Service (Cal Water) presentó ante la Comisión de Servicios Públicos de California (CPUC) su Plan de Mejora de Infraestructuras para 2024, conocido como Solicitud de Audiencia Tarifaria General (GRC) (A.24-07-003). Como parte de la solicitud, Cal Water pide el aumento de las tarifas para financiar ciertas mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y también para ajustar por la inflación. Si la CPUC aprueba la solicitud, los costos previstos se recuperarán durante un período de tres años, lo que afectará su factura de agua no antes de enero de 2026.

¿Por qué Cal Water solicita esto?

- Cal Water tiene la obligación de presentar una solicitud ante la CPUC cada tres años para que las tarifas del agua reflejen con precisión el costo de proporcionar agua potable segura, limpia y confiable a los clientes.
- Este plan plurianual permite a la empresa de servicios públicos mejorar y modernizar el sistema de agua a través de mejoras proactivas en la infraestructura diseñadas para mantener la confiabilidad del agua para los clientes, hacer que sus comunidades sean más seguras, evitar que los problemas pequeños se hagan más grandes y más costosos de solucionar, aumentar la sostenibilidad, y proporcionar servicio de alta calidad tanto ahora como en el futuro.
- Algunos de los proyectos clave que Cal Water propone en este ciclo son reemplazar aproximadamente 3,135 pies de tuberías principales de agua antiguas, agregar mejoras de seguridad para ayudar a proteger el sistema de agua y rediseñar la presión del sistema para brindar confiabilidad.
- Cal Water propone combinar las tarifas de los distritos de Dixon y Livermore en una nueva región de Diablo Ranch para ayudar a mejorar la asequibilidad, aprovechar las eficiencias administrativas y estabilizar las tarifas a largo plazo.

¿Cómo podría esto afectar mi factura de agua?

Con consolidación: Si la propuesta de consolidación de Cal Water **recibe la aprobación** de la CPUC como se presentó, a partir de 2026, la factura residencial promedio del distrito de Dixon (con un medidor de 5/8" x 3/4" y con un consumo de 5,236 galones, o 7 Ccf*, al mes) aumentaría alrededor de \$6.24, o un 8.8%, al mes. Estos números no incluyen sobrecargos y créditos temporales. En el transcurso del proceso de revisión, que podría durar 18 meses o más, es posible que algunos proyectos se aplacen o se ajusten los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

*1 Ccf = 748 galones

Aumento en la factura promedio de los clientes residenciales con la consolidación

Tipo de cliente	Consumo mensual	Factura actual	Cambio de factura propuesto para 2026		Cambio de factura propuesto para 2027		Cambio de factura propuesto para 2028	
Residenciales	7 Ccf (5,236 galones)	\$71.05	\$6.24	8.8%	\$2.43	3.1%	\$3.19	4.0%
Residenciales inscritos en el Programa de Atención al Cliente	7 Ccf (5,236 galones)	\$45.63	\$4.85	10.6%	\$1.86	3.7%	\$2.23	4.3%

Estos ajustes en las tarifas permitirían aumentos en los ingresos del distrito de -\$61,101 en 2026, \$262,106 en 2027 y \$290,518 en 2028, lo que compensará el costo adicional de las mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad, las operaciones comerciales, y ayudará a afrontar la inflación.

Solicitud de ingresos propuestos según el tipo de cliente con la consolidación**

Tipo de servicio suministrado	Requisito de ingresos actuales	Cambio de factura propuesto para 2026		Cambio de factura propuesto para 2027		Cambio de factura propuesto para 2028	
Servicio medido residencial	\$3,904,594	\$1,278,140	32.7%	\$196,424	0.0%	\$225,762	0.0%
Servicio de medidor no residencial*	\$1,107,771	\$363,536	32.8%	\$64,448	17.7%	\$63,464	14.8%

*El servicio de medidor no residencial se aplica a todas las clases de clientes que no son residenciales (como negocios, viviendas multifamiliares y clientes de la autoridad pública) y no tienen una tarifa separada. **La suma de los ingresos residenciales y no residenciales no será igual al total, debido a otras fuentes de ingresos, como cargos del medidor de construcción, servicios de protección contra incendios y agua reciclada.

Sin consolidación: Si la CPUC **no aprueba** la propuesta de consolidación de la CPUC como se presentó, a partir de 2026, la

factura residencial promedio en el distrito de Dixon (con un medidor de 5/8" x 3/4" y con un consumo de 5,236 galones, o 7 Ccf, al mes) aumentaría alrededor de \$16.00, o un 22.5%, al mes. Estos números no incluyen sobrecargos y créditos temporales. Una vez más, en el transcurso del proceso de revisión de 18 meses, algunos proyectos pueden diferirse o ajustarse los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

Aumento en la factura promedio de los clientes residenciales sin la consolidación

Tipo de cliente	Consumo mensual	Factura actual	Cambio de factura propuesto para 2026		Cambio de factura propuesto para 2027		Cambio de factura propuesto para 2028	
Residenciales	7 Ccf (5,236 galones)	\$71.05	\$16.00	22.5%	\$6.56	7.5%	\$7.54	8.1%
Residenciales inscritos en el Programa de Atención al Cliente	7 Ccf (5,236 galones)	\$45.63	\$10.73	23.5%	\$4.34	7.7%	\$4.98	8.2%

Estos ajustes en las tarifas permitirían aumentos en los ingresos del distrito de \$182,503 en 2026, \$564,536 en 2027 y \$648,702 en 2028, lo que compensará el costo adicional de las mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y ayudará a afrontar a la inflación.

Solicitud de ingresos propuestos según el tipo de cliente sin la consolidación**

Tipo de servicio suministrado	Requisito de ingresos actuales	Cambio de factura propuesto para 2026		Cambio de factura propuesto para 2027		Cambio de factura propuesto para 2028	
Servicio medido residencial	\$3,904,594	\$1,468,555	37.6%	\$440,534	30.0%	\$506,099	26.5%
Servicio de medidor no residencial*	\$1,107,771	\$416,667	37.6%	\$122,845	29.5%	\$141,312	26.2%

**El servicio de medidor no residencial se aplica a todas las clases de clientes que no son residenciales (como negocios, viviendas multifamiliares y clientes de la autoridad pública) y no tienen una tarifa separada. **La suma de los ingresos residenciales y no residenciales no será igual al total, debido a otras fuentes de ingresos, como cargos del medidor de construcción, servicios de protección contra incendios y agua reciclada.*

¿Cómo funciona el resto de este proceso?

Esta solicitud se asignará a un juez de Ley Administrativa de la CPUC que considerará las propuestas y la evidencia presentada durante el proceso de audiencia formal. El juez de Ley Administrativa propondrá una decisión que puede significar adoptar la solicitud de Cal Water, modificarla o denegarla. Cualquiera de los comisionados de la CPUC podrá patrocinar una decisión alterna con un resultado diferente. La decisión propuesta y toda decisión alterna será analizada y sometida a votación por parte de los comisionados de la CPUC en una reunión de votación de la CPUC.

Las partes del procedimiento podrán revisar la solicitud de Cal Water, entre ellas, la Oficina del Defensor Público, que es un defensor del consumidor independiente dentro de la CPUC que representa a los clientes para obtener la tarifa de servicio más baja posible conforme a niveles de servicio confiables y seguros. Para obtener más información sobre la Oficina del Defensor Público, llame al (415) 703-1584, envíe un correo electrónico a PublicAdvocatesOffice@cpuc.ca.gov o visite PublicAdvocates.cpuc.ca.gov.

Notificación de la solicitud presentada por California Water Service para aumentar las tarifas en 2026-2028 correspondientes al distrito de Bakersfield (solicitud n.º 24-07-003)

¿Por qué recibo este aviso?

El 8 de julio de 2024, California Water Service (Cal Water) presentó ante la Comisión de Servicios Públicos de California (CPUC) su Plan de Mejora de Infraestructuras para 2024, conocido como Solicitud de Audiencia Tarifaria General (GRC) (A.24-07-003). Como parte de la solicitud, Cal Water pide el aumento de las tarifas para financiar ciertas mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y también para ajustar por la inflación. Si la CPUC aprueba la solicitud, los costos previstos se recuperarán durante un período de tres años, lo que afectará su factura de agua no antes de enero de 2026.

¿Por qué Cal Water solicita esto?

- Cal Water tiene la obligación de presentar una solicitud ante la CPUC cada tres años para que las tarifas del agua reflejen con precisión el costo de proporcionar agua potable segura, limpia y confiable a los clientes.
- Este plan plurianual permite a la empresa de servicios públicos mejorar y modernizar el sistema de agua a través de mejoras proactivas en la infraestructura diseñadas para mantener la confiabilidad del agua para los clientes, hacer que sus comunidades sean más seguras, evitar que los problemas pequeños se hagan más grandes y más costosos de solucionar, aumentar la sostenibilidad, y proporcionar servicio de alta calidad tanto ahora como en el futuro.
- Algunos de los proyectos clave que Cal Water propone en este ciclo son reemplazar aproximadamente 78,445 pies de tuberías de agua antiguas, construir un nuevo tanque y pozo de almacenamiento de 2.25 millones de galones, y mejorar una instalación de tratamiento de agua.

¿Cómo podría esto afectar mi factura de agua?

Si la propuesta de Cal Water recibe la aprobación de la CPUC como se presentó, a partir de 2026, la factura residencial promedio en el distrito de Bakersfield (con un medidor de 5/8" x 3/4" y con 8,977 galones o 12 Ccf*, al mes) podría aumentar en aproximadamente \$8.71 o 18.2% al mes. Estos números no incluyen sobrecargos y créditos temporales. En el transcurso del proceso de revisión, que podría durar 18 meses o más, es posible que algunos proyectos se aplacen o se ajusten los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

*1 Ccf = 748 galones

Aumento en la cuenta de un cliente residencial promedio

<i>Tipo de cliente</i>	<i>Consumo mensual</i>	<i>Factura actual</i>	<i>Cambio de factura propuesto para 2026</i>		<i>Cambio de factura propuesto para 2027</i>		<i>Cambio de factura propuesto para 2028</i>	
Residenciales	12 Ccf (8,977 galones)	\$47.87	\$8.71	18.2%	\$4.44	7.8%	\$5.18	8.5%
Residenciales inscritos en el Programa de Atención al Cliente	12 Ccf (8,977 galones)	\$34.94	\$5.20	14.9%	\$3.15	7.9%	\$3.68	8.5%

Estos ajustes en las tarifas permitirían aumentos en los ingresos del distrito de \$18,880,902 en 2026, \$9,873,460 en 2027 y \$11,529,225 en 2028, lo que compensará el costo adicional de las mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y ayudará a afrontar la inflación.

Solicitud de ingresos propuestos según el tipo de cliente**

Notificación de la solicitud presentada por California Water Service para aumentar las tarifas en 2026-2028 correspondientes al distrito del East Los Angeles (solicitud n.º 24-07-003)

¿Por qué recibo este aviso?

El 8 de julio de 2024, California Water Service (Cal Water) presentó ante la Comisión de Servicios Públicos de California (CPUC) su Plan de Mejora de Infraestructuras para 2024, conocido como Solicitud de Audiencia Tarifaria General (GRC) (A.24-07-003). Como parte de la solicitud, Cal Water pide el aumento de las tarifas para financiar ciertas mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y también para ajustar por la inflación. Si la CPUC aprueba la solicitud, los costos previstos se recuperarán durante un período de tres años, lo que afectará su factura de agua no antes de enero de 2026.

¿Por qué Cal Water solicita esto?

- Cal Water tiene la obligación de presentar una solicitud ante la CPUC cada tres años para que las tarifas del agua reflejen con precisión el costo de proporcionar agua potable segura, limpia y confiable a los clientes.
- Este plan plurianual permite a la empresa de servicios públicos mejorar y modernizar el sistema de agua a través de mejoras proactivas en la infraestructura diseñadas para mantener la confiabilidad del agua para los clientes, hacer que sus comunidades sean más seguras, evitar que los problemas pequeños se hagan más grandes y más costosos de solucionar, aumentar la sostenibilidad, y proporcionar servicio de alta calidad tanto ahora como en el futuro.
- Algunos de los proyectos clave que Cal Water propone en este ciclo son reemplazar aproximadamente 31,590 pies de tuberías de agua antiguas, instalar nuevos generadores para la confiabilidad del sistema y construir un nuevo pozo para satisfacer las demandas de suministro.

¿Cómo podría esto afectar mi factura de agua?

Si la propuesta de Cal Water recibe la aprobación de la CPUC como se presentó, a partir de 2026, la factura residencial promedio en East Los Angeles (con un medidor de 5/8" x 3/4" y con 5,984 galones o 8 Ccf* al mes) podría aumentar en aproximadamente \$6.24 o 10.9% al mes. Estos números no incluyen sobrecargos y créditos temporales. En el transcurso del proceso de revisión, que podría durar 18 meses o más, es posible que algunos proyectos se aplacen o se ajusten los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

*1 Ccf = 748 galones

Aumento en la cuenta de un cliente residencial promedio

<i>Tipo de cliente</i>	<i>Consumo mensual</i>	<i>Factura actual</i>	<i>Cambio de factura propuesto para 2026</i>		<i>Cambio de factura propuesto para 2027</i>		<i>Cambio de factura propuesto para 2028</i>

Aumento en la cuenta de un cliente residencial promedio

Tipo de cliente	Consumo mensual	Factura actual	Cambio de factura propuesto para 2026		Cambio de factura propuesto para 2027		Cambio de factura propuesto para 2028	
Residenciales	7 Ccf (5,236 galones)	\$45.04	\$6.61	14.7%	\$5.22	10.1%	\$5.91	10.4%
Residenciales inscritos en el Programa de Atención al Cliente	7 Ccf (5,236 galones)	\$28.09	\$3.59	12.8%	\$3.21	10.1%	\$3.63	10.4%

Estos ajustes en las tarifas permitirían aumentos en los ingresos del área de \$10,101,982 en 2026, \$5,647,294 en 2027 y \$6,395,296 en 2028, lo que compensará el costo adicional de las mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad, las operaciones comerciales, y ayudará a afrontar la inflación.

Solicitud de ingresos propuestos según el tipo de cliente**

Tipo de servicio suministrado	Requisito de ingresos actuales	Cambio de factura propuesto para 2026	Cambio de factura propuesto para 2027	Cambio de factura propuesto para 2028

Servicio medido residencial	\$23,816,193	\$5,406,901	22.7%	\$2,923,172	10.0%	\$3,305,288	10.3%
Servicio de medidor no residencial*	\$20,472,093	\$4,647,193	22.7%	\$2,685,863	10.7%	\$3,050,094	11.0%

**El servicio de medidor no residencial se aplica a todas las clases de clientes que no son residenciales (como negocios, viviendas multifamiliares y clientes de la autoridad pública) y no tienen una tarifa separada. **La suma de los ingresos residenciales y no residenciales no será igual al total, debido a otras fuentes de ingresos, como cargos del medidor de construcción, servicios de protección contra incendios y agua reciclada.*

¿Cómo funciona el resto de este proceso?

Esta solicitud se asignará a un juez de Ley Administrativa de la CPUC que considerará las propuestas y la evidencia presentada durante el proceso de audiencia formal. El juez de Ley Administrativa propondrá una decisión que puede significar adoptar la solicitud de Cal Water, modificarla o denegarla. Cualquiera de los comisionados de la CPUC podrá patrocinar una decisión alterna con un resultado diferente. La decisión propuesta y toda decisión alterna será analizada y sometida a votación por parte de los comisionados de la CPUC en una reunión de votación de la CPUC.

Las partes del procedimiento podrán revisar la solicitud de Cal Water, entre ellas, la Oficina del Defensor Público, que es un defensor del consumidor independiente dentro de la CPUC que representa a los clientes para obtener la tarifa de servicio más baja posible conforme a niveles de servicio confiables y seguros. Para obtener más información sobre la Oficina del Defensor Público, llame al (415) 703-1584, envíe un correo electrónico a PublicAdvocatesOffice@cpuc.ca.gov o visite PublicAdvocates.cpuc.ca.gov.

Notificación de la solicitud presentada por California Water Service para aumentar las tarifas en 2026-2028 correspondientes al distrito de Selma (solicitud n.º 24-07-003)

¿Por qué recibo este aviso?

El 8 de julio de 2024, California Water Service (Cal Water) presentó ante la Comisión de Servicios Públicos de California (CPUC) su Plan de Mejora de Infraestructuras para 2024, conocido como Solicitud de Audiencia Tarifaria General (GRC) (A.24-07-003). Como parte de la solicitud, Cal Water pide el aumento de las tarifas para financiar ciertas mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y también para ajustar por la inflación. Si la CPUC aprueba la solicitud, los costos previstos se recuperarán durante un período de tres años, lo que afectará su factura de agua no antes de enero de 2026.

¿Por qué Cal Water solicita esto?

- Cal Water tiene la obligación de presentar una solicitud ante la CPUC cada tres años para que las tarifas del agua reflejen con precisión el costo de proporcionar agua potable segura, limpia y confiable a los clientes.
- Este plan plurianual permite a la empresa de servicios públicos mejorar y modernizar el sistema de agua a través de mejoras proactivas en la infraestructura diseñadas para mantener la confiabilidad del agua para los clientes, hacer que sus comunidades sean más seguras, evitar que los problemas pequeños se hagan más grandes y más costosos de solucionar, aumentar la sostenibilidad, y proporcionar servicio de alta calidad tanto ahora como en el futuro.
- Algunos de los proyectos clave que Cal Water propone en este ciclo son reemplazar aproximadamente 7,100 pies de tuberías de agua antiguas, construir un nuevo pozo para aumentar el suministro de agua y comprar terreno para un nuevo pozo para satisfacer la demanda.

¿Cómo podría esto afectar mi factura de agua?

Si la propuesta de Cal Water recibe la aprobación de la CPUC como se presentó, a partir de 2026, la factura residencial promedio en el distrito de Selma (con un medidor de 5/8" x 3/4" y con 8,977 galones o 12 Ccf*, al mes) podría aumentar en aproximadamente \$6.09 o 14.3% al mes. Estos números no incluyen sobrecargos y créditos temporales. En el transcurso del proceso de revisión, que podría durar 18 meses o más, es posible que algunos proyectos se aplacen o se ajusten los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

*1 Ccf = 748 galones

Aumento en la cuenta de un cliente residencial promedio

Tipo de cliente	Consumo mensual	Factura actual	Cambio de factura propuesto para 2026	Cambio de factura propuesto para 2027	Cambio de factura propuesto para 2028
Residenciales	12 Ccf (8,977 galones)	\$42.58	\$6.09 14.3%	\$4.66 9.6%	\$5.73 10.7%
Residenciales inscritos en el Programa de Atención al Cliente	12 Ccf (8,977 galones)	\$30.93	\$3.67 11.9%	\$3.40 9.8%	\$4.18 11.0%

Estos ajustes en las tarifas permitirían aumentos en los ingresos del distrito de \$1,617,816 en 2026, \$692,891 en 2027 y \$851,255 en 2028, lo que compensará el costo adicional de las mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad, las operaciones comerciales, y ayudará a afrontar la inflación.

Notificación de la solicitud presentada por California Water Service para aumentar las tarifas en 2026-2028 correspondientes al distrito de Stockton (solicitud n.º 24-07-003)

¿Por qué recibo este aviso?

El 8 de julio de 2024, California Water Service (Cal Water) presentó ante la Comisión de Servicios Públicos de California (CPUC) su Plan de Mejora de Infraestructuras para 2024, conocido como Solicitud de Audiencia Tarifaria General (GRC) (A.24-07-003). Como parte de la solicitud, Cal Water pide el aumento de las tarifas para financiar ciertas mejoras necesarias en infraestructura, el mantenimiento del sistema de agua, las iniciativas de calidad del agua, las medidas de seguridad y las operaciones comerciales, y también para ajustar por la inflación. Si la CPUC aprueba la solicitud, los costos previstos se recuperarán durante un período de tres años, lo que afectará su factura de agua no antes de enero de 2026.

¿Por qué Cal Water solicita esto?

- Cal Water tiene la obligación de presentar una solicitud ante la CPUC cada tres años para que las tarifas del agua reflejen con precisión el costo de proporcionar agua potable segura, limpia y confiable a los clientes.
- Este plan plurianual permite a la empresa de servicios públicos mejorar y modernizar el sistema de agua a través de mejoras proactivas en la infraestructura diseñadas para mantener la confiabilidad del agua para los clientes, hacer que sus comunidades sean más seguras, evitar que los problemas pequeños se hagan más grandes y más costosos de solucionar, aumentar la sostenibilidad, y proporcionar servicio de alta calidad tanto ahora como en el futuro.
- Algunos de los proyectos clave que Cal Water propone en este ciclo son reemplazar aproximadamente 88,405 pies de tuberías de agua antiguas, instalar un nuevo generador, mejorar un tanque de almacenamiento para extender su vida útil y reconstruir un pozo para ayudar a mantener el suministro confiable.

¿Cómo podría esto afectar mi factura de agua?

Si la propuesta de Cal Water recibe la aprobación de la CPUC como se presentó, a partir de 2026, la factura residencial promedio en el distrito de Stockton (con un medidor de 5/8" x 3/4" y con 5,236 galones o 7 Ccf*, al mes) podría aumentar en aproximadamente \$4.55 o 9.3% al mes. Estos números no incluyen sobrecargos y créditos temporales. En el transcurso del proceso de revisión, que podría durar 18 meses o más, es posible que algunos proyectos se aplacen o se ajusten los costos. Las tarifas finales aprobadas pueden ser inferiores a las propuestas.

*1 Ccf = 748 galones

Aumento en la cuenta de un cliente residencial promedio
